Art Unit	Unit Title	Unit Description	Unit Objectives	Unit Activities	Unit Assessments
1	Unit 1: Introduction to the Course	Students will be introduced to the course and its objectives. They will learn about the importance of art in our lives and how it can be used to express our emotions and ideas.	Students will be able to identify the different types of art and explain the importance of each. They will also be able to describe the role of art in society and how it can be used to communicate our thoughts and feelings.	Students will participate in a variety of art activities, including drawing, painting, and sculpture. They will also be encouraged to explore different art mediums and techniques.	Students will be assessed on their understanding of the course objectives and their ability to identify and describe different types of art.
2	Unit 2: The Elements of Art	Students will learn about the basic elements of art, including line, shape, color, and texture. They will also learn about the principles of design, such as balance, contrast, and unity.	Students will be able to identify and describe the basic elements of art and explain how they are used in different types of art. They will also be able to apply the principles of design to their own work.	Students will participate in a variety of art activities, including drawing, painting, and sculpture. They will also be encouraged to explore different art mediums and techniques.	Students will be assessed on their understanding of the elements of art and the principles of design, and their ability to apply these concepts to their own work.
3	Unit 3: The History of Art	Students will learn about the history of art, from ancient times to the present. They will explore the different art movements and styles, and how they have evolved over time.	Students will be able to identify and describe the different art movements and styles, and explain how they have evolved over time. They will also be able to analyze and interpret the meaning of different works of art.	Students will participate in a variety of art activities, including drawing, painting, and sculpture. They will also be encouraged to explore different art mediums and techniques.	Students will be assessed on their understanding of the history of art and their ability to analyze and interpret different works of art.
4	Unit 4: The Art of the Future	Students will learn about the future of art, including digital art, virtual reality, and artificial intelligence. They will explore the different challenges and opportunities that these new technologies present for the art world.	Students will be able to identify and describe the different challenges and opportunities that digital art, virtual reality, and artificial intelligence present for the art world. They will also be able to analyze and interpret the meaning of different works of art.	Students will participate in a variety of art activities, including drawing, painting, and sculpture. They will also be encouraged to explore different art mediums and techniques.	Students will be assessed on their understanding of the future of art and their ability to analyze and interpret different works of art.
